PART I

ITEM 1. DESCRIPTION OF BUSINESS.

(a) General Development of Business. Registrant, a successor to the business established by William R. Kelly in 1946, was incorporated under the laws of Delaware on August 27, 1952. Throughout its existence, registrant has been engaged in the temporary help service business. During the last fiscal year, registrant continued to provide temporary help services and other staffing and human resources services to a diversified group of customers.

(b) Financial Information about Industry Segments. Registrant operates in a single industry segment of providing temporary help services. The financial information concerning registrant is included in Item 8 in Part II of this filing.

(c) Narrative Description of Business.

(i) Principal Services Rendered. Registrant, and its subsidiaries, which are service organizations, provide temporary office clerical, marketing, professional, technical, light industrial, home care services (to those who need help with their daily living needs and personal care), management services and other business services to a diversified group of customers through offices located in major cities of the United States, Canada, United Kingdom, Ireland, Denmark, France, Luxembourg (acquired subsequent to December 31, 1995), The Netherlands, Norway, Switzerland, Australia, New Zealand, and Mexico. These services are generally furnished under the name of Kelly Temporary Services, with the following specific services provided: office clerical, marketing, professional, technical, semi-skilled light industrial and management services. Staff leasing services are provided under the name of Your Staff, a wholly owned subsidiary of the registrant. Home care services to those who need help with their daily living needs and personal care are furnished under the name of Kelly Assisted Living Services, Inc., which is a wholly owned subsidiary of registrant. Legal staffing services are provided under the name of The Wallace Law Registry, a wholly owned subsidiary of the registrant. Registrant performs these services through its temporary employees by assigning them to work on the premises of registrant's customers.

The temporary services furnished by registrant afford economies and flexibility in meeting uneven or peak work loads caused by such predictable factors as vacations, inventories, month-end activities, special projects or new promotions and such non-predictable factors as illnesses or emergencies. When work peaks occur which cannot be handled by the customer's normal staff, the customer can temporarily supplement regular personnel by the use of registrant's services. The cost and inconvenience to the customer of hiring additional employees, including advertising, interviewing, screening, testing and training are eliminated. Also, recordkeeping is simplified because the customer pays an hourly rate, based on hours of service furnished by registrant.

Registrant serves a wide cross-section of customers from industry, commerce, the professions, government, and individuals. During recent years approximately 215,000 customers, including the largest corporations in the world, use the registrant's services. There have been no significant

changes in the services rendered or in the markets or methods of distribution since the beginning of registrant's fiscal year.

Registrant operates through approximately 1,300 domestic and foreign offices located in all 50 states, the District of Columbia and Puerto Rico; and Canada, United Kingdom, Ireland, Denmark, France, Luxembourg (acquired subsequent to December 31, 1995), The Netherlands, Norway, Switzerland, Australia, New Zealand, and Mexico. Each office provides the services of one or more of the divisions or subsidiaries. At fiscal year-end 1995 all of the offices were operated directly by the registrant, as the remaining licensed branches were converted to direct operated branches in February 1995.

(ii) New Services. There are no new industry segments that the registrant is planning to enter or new service areas that will require a material investment of assets.

(iii) Raw Materials. Registrant is involved in a service business and raw materials are nonexistent in the business.

(iv) Service Marks. Registrant is the owner of several service marks, which are registered with the United States Patent and Trade Mark Office and in a number of foreign countries. The most significant marks are "Kelly" and "Kelly Girl", which have indeterminate duration.

(v) Seasonal Business Implications. Registrant's business is not seasonal.

(vi) Working Capital. Registrant believes there are no unusual or special working capital requirements in the temporary help industry.

(vii) Customers. The business of registrant and its subsidiaries is not dependent upon either a single customer or a limited number of customers.

(viii) Backlog. Backlog of orders is not material to the business of registrant.

(ix) Government Contracts. Although registrant conducts business under various government contracts, that portion of registrant's business is not significant.

(x) Competition. Registrant is one of the largest suppliers of temporary help services in the United States. Several companies which operate nationally offer services competitive to those provided by registrant, and a large number of organizations operating regionally or locally compete in varying degrees in different localities where registrant operates branch offices. The most significant competitive factors are price and service to customers in the form of timely, efficient and reliable temporary help.

(xi) Research Activities. Registrant's expenditure for research and the number of people involved are not material.

(xii) Environmental Matters. Registrant is involved in a service business and is not affected by federal, state and local provisions regulating the discharge of materials into the environment.

(xiii) Employees. Registrant and subsidiaries employ on a full time basis approximately 1,000 persons at its headquarters in Troy, Michigan, and approximately 4,600 persons in branch offices operated directly by registrant. Registrant employed in the last fiscal year 655,000 men and women for temporary periods. As the employer, registrant is responsible for and pays Social Security and Medicare taxes, workers' compensation, federal and state unemployment compensation taxes, liability insurance and other similar costs, and is responsible for payroll deductions of Social Security, Medicare and income taxes. Although the work may be done in the office of the registrant's customer, registrant remains the employer of its temporary employees with responsibility for their assignment and reassignment.

(d) Foreign Operations. For information regarding sales, earnings or loss from operations and identifiable assets by domestic and foreign operations, reference is made to the information presented in the Summary of Significant Accounting Policies note to the consolidated financial statements presented in Item 8 in Part II of this report.

ITEM 2. PROPERTIES.

Registrant owns the premises in Troy, Michigan, from which its headquarters, subsidiaries and divisional offices are presently operated. Registrant purchased the original headquarters building in Troy, Michigan, in 1977 and has expanded operations into an adjacent building that was purchased in 1991. The combined floor space for the headquarters complex approximates 206,000 square feet, plus leased space nearby of 27,000 square feet. The buildings are in good condition, are considered to be adequate for the uses to which they are being put and are in regular use. In addition, registrant owns vacant land in Troy and northern Oakland County, Michigan, for future expansion. Registrant's branch offices are conducted from premises which are leased. A majority of the leases are for fixed terms, from one to five years. Registrant owns virtually all office furniture and equipment used in its headquarters building and branch offices.

ITEM 3. LEGAL PROCEEDINGS.

In 1992 the Internal Revenue Service (IRS) proposed the imposition of an accumulated earnings tax totaling \$49 million for 1988, 1989 and 1990 in connection with an audit of the Company's consolidated federal tax liability. The proposed amount has been subsequently reduced to \$6.5 million. The Company believes there is no factual or legal basis for the imposition of any accumulated earnings tax and that the Company is fully justified in making provision to meet the present and future needs of its expanding business operations. The Company is defending its position through the IRS appeal process and into the courts if necessary. In the opinion of the Company, the ultimate resolution of this issue will not materially affect its financial statements.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There were no matters submitted to a vote of security holders in the fourth quarter of 1995.

PART II

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Results of Operations

1995 versus 1994

Sales reached a record level of \$2.69 billion in 1995, an increase of 14% over 1994. International sales grew most rapidly, accounting for 19% of total company sales, up from 15% in 1994.

Cost of services, representing payroll and related taxes and benefits for temporary employees, increased 13%. Increases in pay rates, payroll taxes and other direct costs accounted for these changes. Overall, the percentage of gross profit to sales increased to 20.1% in 1995 from 19.6% in 1994.

Selling, general and administrative expenses increased 18% over 1994. As a percentage of sales, expenses increased to 16.2%, up from 15.7% in 1994. The increase principally reflects the opening of new offices, the effect of acquired companies for full years and normal growth.

Earnings from operations in 1995 totaled just over \$105 million, a new record for the Company, and an increase of 15% over 1994. These earnings were 3.9% of sales, the same as in 1994.

Interest income increased to \$8.2 million in 1995 which was 22% higher than the \$6.7 million earned in 1994. The increase resulted from higher rates of return on investments.

Earnings before income taxes were a record \$113.3 million, an increase of 15% over 1994. Pre-tax margins as a percentage of sales were 4.2% in both years. Income taxes increased 17% over 1994 with an effective tax rate of 38.7% of pre-tax income. The current tax rate rose primarily as a result of higher state and local taxes and higher foreign tax rates.

Net earnings were \$69.5 million in 1995, 14% higher than the 1994 results of \$61.1 million. The rate of return on sales was 2.6% in both 1995 and 1994. Earnings per share were \$1.83, a 14% increase over the \$1.61 per share earned in 1994.

1994 versus 1993

Sales reached a record level of \$2.36 billion in 1994, an increase of 21% over 1993. Increases in domestic sales, acquisitions completed during the year, and the strengthening of worldwide economies all contributed to this growth.

Cost of services, representing payroll and related taxes and benefits for temporary employees, increased 21%. Strong sales volume and increases in pay rates and payroll taxes accounted for this change. Gross profit, as a percent of sales, rose from 19.5% in 1993 to 19.6% in 1994. Excluding the effect of our employee leasing business acquired in 1994, gross profit averaged 20.1% during 1994.

Selling, general and administrative expenses rose 17% during 1994. This increase principally reflected costs added by acquired companies, opening of new offices and normal growth. As a percent of sales, expenses declined from 16.2% to 15.7% in 1994. Excluding the effects of the employee leasing business (with its inherently lower cost structure), the expense to sales relationship was 16.1% in 1994. Earnings from operations in 1994 totaled approximately \$92 million, an increase of 44% over 1993.

Interest income for 1994 was \$6.7 million, down 3.6% from the 1993 level of \$7.0 million. The reduction in the interest rates accounted for the slight decline in interest income during the year.

Earnings before taxes were \$98.5 million, an increase of 39%. Pretax margins were 4.2% in 1994, improved from 3.6% in 1993. Income taxes increased 42% over 1993, with an effective tax rate of 38.0%, compared to a 37.1% rate in 1993. The current year tax rate rose primarily as a result of the reduction in tax exempt interest income and the absence in 1994 of a credit from revaluing deferred taxes due to the 1% increase in the U.S. statutory corporate tax rate in 1993.

Net earnings were \$61.1 million in 1994, 37% above the 1993 results of \$44.6 million. The rate of return on sales was 2.6%, up from the 1993 return of 2.3%. Earnings per share were \$1.61 in 1994 and \$1.18 in 1993.

Liquidity and Capital Resources

During 1995, capital expenditures were made primarily for new office equipment, expansion of the branch office network in the U.S. and Europe, business acquisitions and new customer services, including the new "PinPoint" software training product. The foregoing capital expenditures, along with cash dividends, were financed internally with \$29 million from operating activities and a reduction in short-term investments. In 1994 and 1993, net cash flows from operating activities of \$69 million and \$46 million, respectively, were directed primarily toward purchases of equipment, dividend payments and the acquisition of businesses.

The Company's working capital remained unchanged from 1994 at \$316 million. The current ratio averaged 2.3 in 1995, 2.5 in 1994 and 2.9 in 1993. The current ratios have declined over this period due principally to the use of current assets to finance continued business expansion including the acquisition of businesses and investment in additional computing capability in branch offices.

Stockholders' equity grew 10% in 1995, following a 12% growth in 1994 and a 5% increase in 1993. The return on average stockholders' equity was 15.3% in 1995, 14.9% in 1994 and 11.8% in 1993. Stockholders' equity per share was \$12.52, an increase of 10% over 1994. Dividends paid per share were \$.78 in 1995, an increase of 11% over 1994.

The Company's financial position continues to be strong. The Company believes that this strength, including the absence of any long-term debt, will allow it to aggressively pursue growth opportunities. Capital requirements are expected to be financed internally.

Certain prior year amounts have been reclassified to conform with the current presentation.

CURRENT ASSETS

Cash and equivalents are stated at cost, which approximates market. Included are highly liquid debt instruments with original maturities of three months or less.

Short-term investments are debt instruments having original maturities of more than three months. Of these investments, federal, state and local government obligations comprised approximately 90% in 1995 and 80% in 1994. Short-term investments due within one year totaled \$67,000 in 1995 and \$119,000 in 1994. The balance is due within two years and is available for sale. The difference between carrying amounts and market was not material at December 31, 1995 and January 1, 1995.

Cash flows from short-term investments for 1995, 1994 and 1993 were as follows:

	1995	1994	1993

PROPERTY AND EQUIPMENT

Properties are stated at cost and include expenditures for additions and major improvements. Fully depreciated assets are eliminated from the accounts. For financial reporting purposes, assets are depreciated over their estimated useful lives, principally by the straight-line method.

NOTES TO FINANCIAL STATEMENTS (continued)
Kelly Services, Inc. and Subsidiaries
(In thousands of dollars except share and per share items)

The Company conducts its field operations primarily from leased facilities. The following are future minimum lease commitments for the five-year period commencing in 1996: \$29,700, \$23,800, \$17,400, \$11,900 and \$8,800. Lease expense for 1995, 1994 and 1993 amounted to \$29,800, \$26,700 and \$24,900, respectively.

INTANGIBLES AND OTHER ASSETS

Intangibles and other assets include goodwill of \$55,400, \$32,000 and \$14,400 at year-ends 1995, 1994 and 1993, respectively. Goodwill, which represents the excess of cost over net assets of businesses acquired, is amortized on a straight-line basis over periods not exceeding 40 years. Accumulated amortization at 1995, 1994 and 1993 was \$3,100, \$1,900 and \$1,200, respectively.

The Company periodically reviews the specific carrying amounts of goodwill and has determined that no impairments have occurred. Such reviews are based on various analyses including profitability projections and management's judgment of the related business' ability to achieve sufficient profitability.

Other assets include deposits and cash values of life insurance on the lives of officers and key employees.

CAPITALIZATION AND STOCK SPLITS

The authorized capital stock of the Company is 100,000,000 shares of Class A common stock and 10,000,000 shares of Class B common stock. Class A shares have no voting rights and are not convertible. Class B shares have voting rights and are convertible into Class A shares on a share-for-share basis at any time. Both classes of stock have identical rights in the event of liquidation.

In May 1993, the Board of Directors declared a five-for-four split of the Class A and Class B common stock. At the same time, the stockholders approved an increase in the number of authorized Class A shares to 100,000,000, from 50,000,000. All per share and share data in the accompanying financial statements and notes have been restated to give effect to stock splits.

Earnings per share are based on the average number of Class A and Class B common shares outstanding during the year.

PERFORMANCE INCENTIVE PLAN

In May 1992, the stockholders approved the Performance Incentive Plan (the "Plan") to replace the Incentive Stock Option Plan which expired earlier that year. Under the Plan, stock options (both incentive and nonqualified), Stock Appreciation Rights (SARs), restricted awards, and performance awards may be granted to key employees, utilizing the Company's Class A stock. Stock options may not be granted at prices less than the fair market value on the date of grant, nor for a term to exceed 10 years.

The Plan provides that the maximum number of shares available for grants is five percent of the outstanding Class A stock, adjusted for Plan activity over the preceding five years.

NOTES TO FINANCIAL STATEMENTS (continued)
 Kelly Services, Inc. and Subsidiaries
 (In thousands of dollars except share and per share items)

As of December 31, 1995, no SARs or performance awards have been granted under the Plan. Restricted awards totaling 66,800 and 53,000 shares were granted under the Plan during 1995 and 1994, respectively.

The combined activity under the plans identified above is as follows:

	=====	

At the end of 1995, there were 910,674 shares available for future grants.

During 1995, the Financial Accounting Standards Board issued SFAS No. 123, Accounting for Stock-Based Compensation. This statement sets forth standards for accounting for stock-based compensation or allows companies to continue to account for stock-based compensation under the requirements of Accounting Principles Board (APB) Opinion No. 25 and make additional disclosure in the notes to the financial statements. It is the Company's intention to continue to account for stock-based compensation in accordance with APB Opinion No. 25 and provide additional disclosure in the notes to the financial statements beginning in 1996.

RETIREMENT BENEFITS

The Company provides a qualified defined contribution plan covering substantially all full-time employees, except officers and certain other management employees. Upon approval by the Board of Directors, a contribution based on eligible wages is funded annually. The plan offers a savings feature with Company matching contributions. Assets of this plan are held by an independent trustee for the sole benefit of participating employees.

NOTES TO FINANCIAL STATEMENTS (continued)
Kelly Services, Inc. and Subsidiaries
(In thousands of dollars except share and per share items)

A nonqualified defined contribution plan is provided for officers and certain other management employees. Upon approval by the Board of Directors, a contribution based on eligible wages is set aside annually. This plan also includes provisions for salary deferrals and Company matching contributions.

The total amounts provided for retirement benefits amounted to \$4,440 in 1995, \$3,916 in 1994 and \$3,430 in 1993.

INCOME TAXES

The following summarizes the differences between income taxes for financial reporting purposes and the United States statutory tax rate for the years 1995, 1994 and 1993.

	1995	1994	1993
	----	----	----
Statutory rate	35.0%	35.0%	35.0%
State and local taxes, net of federal benefit.	5.3	4.9	5.2
Tax exempt income and other tax credits.	(2.6)	(2.2)	(2.6)
Other.	1.0	0.3	(0.5)
	-----	-----	-----
Effective tax rate	38.7%	38.0%	37.1%
	=====	=====	=====

Deferred taxes are related to the effect of temporary differences between financial and tax reporting. These differences are related principally to depreciation, benefit plan costs, provisions for workers' compensation claims, full-time and temporary employee vacation costs and provisions for doubtful accounts.

In 1992 the Internal Revenue Service (IRS) proposed the imposition of an accumulated earnings tax totaling \$49 million for 1988, 1989 and 1990 in connection with an audit of the Company's consolidated federal tax liability. The proposed amount has been subsequently reduced to \$6.5 million. The Company believes there is no factual or legal basis for the imposition of any accumulated earnings tax and that the Company is fully justified in making provision to meet the present and future needs of its expanding business operations. The Company is defending its position through the IRS appeal process and into the courts if necessary. In the opinion of the Company, the ultimate resolution of this issue will not materially affect its financial statements.

The Company paid income taxes of \$52,900 in 1995, \$43,300 in 1994 and \$34,800 in 1993.
